

## WELCOME ABOARD LETTER

Welcome to the Marine Corps Cyberspace Warfare Group! We are glad you are joining our ranks.

The Marine Corps Cyberspace Warfare Group is dedicated to the effective **organization, training, equipping and sustained readiness** of our Cyber Mission Force (CMF)-assigned teams. Our primary objective is to field the **nation's premier cyber forces**, capable of achieving objectives within joint, interagency, intergovernmental and multinational campaigns and operations. As the force headquarters group, we **support and empower our fellow Marines and Civilians** across MARFORCYBER, MARFORSPACE, Marine Corps Information Command, Joint Force Headquarters-Cyber Marines/Joint Task Force-ARES, and the greater CMF, allowing them to focus on accomplishing their assigned missions.

Professionally, we face a complex, congested, contested, dynamic, uncertain, volatile, and demanding, operational environment. That confrontation affords us a rewarding opportunity to contribute to the defense of our nation. We hold an essential obligation to solve complex problems and combat pervasive, insidious threats. Since its inception, the MCCYWG has proven immense value as a **force generator, force enabler, and force multiplier**. Make no mistake, we exist to create and sustain critical capabilities that offer advantages to strategic decision makers through flexible deterrence, viable response options, and dependable operational agility, as we generate a formidable force against determined enemies.

Personally, we must acknowledge the support we receive from our families. People are undoubtedly our most invaluable and irreplaceable assets. Without first ensuring our family readiness, none of us can clearly focus our undivided attention on training, exercises, operations, or mission accomplishment. Beyond our mission, we want to take a moment to talk about work-life balance. Our families serve alongside us. Though often silent or unseen in the background, their unwavering commitment enables us to perform our mission. Their significant contributions and sacrifices do not go unnoticed. Family Readiness constitutes a critical component of unit effectiveness; and a key focus of this command team. The local area around Fort Meade, Maryland, affords significant education, employment, and recreation opportunities. Take advantage of them!

Together, our **world-class talent** will remain ready and capable of creating and exploiting information advantages from the tactical to strategic levels of warfare, in any warfighting domain. Our commitment to **trust, teamwork, and core values** drives us forward.

The MCCYWG Team stands ready to ensure a smooth transition into the unit. Contact your sponsor or the S-1 for any assistance that you may require during your arrival.

*Semper Fidelis,*

Colonel Jamel L. Neville  
Commanding Officer

Sergeant Major Aaron Colling  
Senior Enlisted Leader
